DEPARTMENT OF JUSTICE.

REPORT FOR 1891.

His Excellency Dr. Ballestra shews some of the many defects in the adminjstration of justice in this country, which render the laws inoperative and inflict incalculable injury on society. We have to condense his remarks as follows:—

The Supreme Federal Tribunal, which Gen. Mitre established in 1863, has become totally unable to do its work, owing to the great influx of European immigrants. There is one of these Courts in each Province, but law-suits drag on for years, because the Supreme Court cannot despatch more than 500 suits yearly. One poor man whose appeal was pending since 1884 threw it up last year, after seven years of worry and expense.

Dr. Benjamin Paz has been appointed to succeed Dr. Saenz Peña, the latter having resigned his seat in the Supreme Tribunal on his election as President of the Republic. Dr. Sabine Kier has been named Attorney-General in the room of Dr. Malaver, resigned.

The Registry is, likewise, overwhelmed with work, the number of protested bills reaching 16,500, one of the results of the crisis.

As regards the Judges of Primera Instancia for the city of Buenos Ayres, who are 17 in number, they are hardly able to get through one-fourth of their work, as shewn by the following table—

	1890	1891
Suits.....	12,933	14,549
Decided....	3,736	3,854
Pending...	9,197	10,695

It will be necessary to double the number of Judges, in order to get through the work.

The Commercial Courts are in a still worse condition: they had 12,400 suits on hand last January, and new cases average 900 monthly, so that this accumulation of work is really appalling.

There are also 30 minor tribunals, presided over by Justices of the Peace, and the business of 6 months ending June 30th 1892 shewed thus—

Cases decided....	4,415
Amicably settled..	4,366
Cases pending....	19,415
Total.....	28,196

Thus between the Civil, Commercial and district tribunals there are at present in Buenos Ayres 42,000 law-suits waiting for decision, without the requisite number of judges to despatch them. The Minister deplores, moreover, that very grave charges are made against some of the Judges.

As regards the Criminal Court there were 3,800 cases last year, and the average number of prisoners in the Penitentiary is 900. The Minister considers that the want of prisons in the Provinces is a crying evil, since innocent persons arrested for some municipal edict are thrust into the same cell with deep-dyed assassins. He speaks very highly of the Female Penitentiary, managed by Sisters of Charity, who teach the prisoners various kinds of useful occupation.

The following table shews the number of criminals tried in this city in 1891:—

Argentines.....	1,004
Italians.....	1,129
Spaniards.....	703
French.....	237
Uruguayans.....	119
Germans.....	44
British.....	29
Various.....	171
Total.....	3,436

The causes for which they were tried were:—

Murder.....	65
Stabbing etc.....	931
Robbery.....	872
Fraud etc.....	1,568
Total.....	3,436

The want of a proper Casa de Justicia is much felt. The Law Courts of Buenos Ayres are at present in lodgings, far from the centre of the city. The Minister suggests that justice in the Provinces could be better administered by sending Judges on circuit twice a year, as in England.

MAILS FROM CHILE.

Valparaiso Sept. 24th

A serious rupture having taken place between the Minister of War, General Arteaga, and the chief of the staff, General Korner, the former has resigned.

Owing to the election on Monday little progress has been made with the Bill for the Redemption of the Paper Money, but after the recess for the National Holidays it is expected that the remaining clauses will be quickly disposed of. Yesterday an amendment to permit banks to issue notes of from 10 to 500 dols. passed by 17 to 16, and the Clause to restrict the Banks' issue to 20 millions was rejected by 21 to 15.

For some time past disquieting rumours have been industriously circulated with respect to the relations of Chile with Perú and Bolivia. Yesterday was published an official denial of the reports as far as Peru is concerned, and since then we have received a copy of a statement of the Bolivian Minister for Foreign Affairs with completely disposes of the rumours which respect to Bolivian.

Mayor Fisher is displaying praiseworthy activity in visiting the hills and slums of this city, with the object of improving their hygienic conditions.

Many town are following the example of Valparaiso, and are making preparations to resist the cholera, in case it should unfortunately make its appearance.

The Minister of the Interior has been making inquiries with respect to the working of the new Liquor Law. The Intendente of Valparaiso is unable to report any diminution in the cases of drunkenness dealt with by the police. The Intendente of Coquimbo reports a diminution of cases in the urban sub-delegations, but not in the rural. The Intendente of O'Higgins reports favourably with respect to the operation of the law in the capital of the province. The Governor of Bulnes also reports favourably. The Governor of Carelmapu reports that the law will not produce in his department all the good hoped from it until the proposed new licence for distilleries become law. The intendente of Llanquihue reports that the law is likely to produce a good effect in the towns, but that in the country parts it is like to be, from the force of circumstances, inoperative. The Intendente of Cautin reports favourably. The Intendente of Valdiva reports favourably on the whole.

At Santiago the feast of Independence was celebrated with great enthusiasm and order. The President attended the *Te Deum* in the Cathedral on the 18th, and the military review in the Parque Cousiño on the 19th, and wherever he appeared he was warmly cheered. The weather was delightful throughout and the Alameda and the racecourse were thronged with most orderly crowds. The review in the Parque naturally attracted the largest concourse of spectators, and the fireworks came next in order. When the President was leaving the Parque on Tuesday after the review, such a compact crowd had gathered at the entrance to see him pass that the escort experienced some difficulty in opening a lane for the carriage. Some persons in the crowd who were probably roughly hustled, and perhaps trampled on, took umbrage at this and a few stones were thrown at the escort, but nobody was hurt.

The police made a raid on a low gambling hell in the callejon de lo Pozo at a late hour on Saturday night, and captured a number of persons who were present. The sergeant in charge was in the act of searching the owner of the place, when he drew a revolver and shot the officer twice, killing him on the spot.

The Royal Mail Steam Packet Company are making arrangements for the establishment of a regular through traffic to Chile, *via* the Transandine route. It is proposed to begin in October, and through tickets from Southampton to Valparaiso are to be issued at the following rates:—First-class single, £40 or £50, according to cabin; first-class return, £71 10s. or £80; second-class single, £30, that is, second class by steamer and first-class by rail from Buenos Ayres to Valparaiso.

The well-known authoress, Baroness Wilson, has gone from Peru to Bolivia to collect materials for her new work *Historia General del Nuevo Mundo.*

The incendiaries of the quinta in Santiago of the late don Benjamin Vicuña Mackenna have been captured, and it is said that very important verbal and written revelations have been obtained. It will probably be remembered that the quinta was burnt down shortly after the erection by Mrs. Vicuña Mackenna, on her estate at Colmo, of a column to commemorate the victory of Concon; and it was said at the time that the quinta was destroyed by dictatorials out of revenge for the action of Mrs. Vicuña Mackenna in celebrating the triumph of Concon.

At last the British Government are taking notice of the outrages committed upon British subjects in Chile, and it is to be hoped that in future better protection will be given to their lives and property than hitherto by the Chilian Government. Lord Salisbury took a severely steady course in regard to the murders of British subjects in Chile lately. The Santiago authorities appear to have thought in the first place that a simple explanation about nomadic gauchos roaming the country after the war would cover the case, but Lord Salisbury was not to be appeased in that way. The matter is not yet settled, but a report on the present position is daily expected from the British representative in the Chilian capital. The idea in Downing Street is that the Chilian Government must be fully impressed with its responsibility in regard to outrages on British subjects committed on Chilian territory.

As an outcome of the strong representation that was recently made to the Home Government with reference to these outrages, we understand that Albert Jones (at present employed at Santiago) whose father was brutally murdered near Adencuil on the 11th of March last, has been promised the title deeds of his "hijuela," as a solatium for the loss of his father, by the Chilian Government. This concession was obtained through the instrumentality of C. T. Maude Esq., Chargé d'Affaires, of the British Legation, Santiago.—*Chilian Times.*

THE RIOJA MINES.

Chilecito, Rioja, Oct. 4th.

The public have been told so many times about the mineral wealth of this range of mountains that it seem useless to add one word. It seems as tho' no amount of telling could make them up to a just appreciation of the opportunities that are every day being neglected. The Government has been ever ready to help with concessions, guarantees and various forms of aid and protection to every province and every industry, and the development of every natural resource, except Rioja and the fostering of its mining industry. Rioja is the only capital without a railway, and for some months during 1891 and the beginning of 1892 not even a line of stage coaches. Chilecito, a district of say 15,000 souls, has no public means of conveyance to the outer world, no common carriers Co. of any description. The entire mineral product is dependent for transport on private mule trains and at the absolute mercy of the arbitrary "arriero". Prices now are $50 currency per ton from the end of track at Padquia to Chilecito, and only a shade less for the return trip. All the metal (ore) from the mine is brought down on mule and donkey back. Few mines can be worked because there is no transportation. The locusts cleaned up the alfalfa last fall, and mule troops are not to be had. They might work the mines you say, and hold the ore until summer, when pasture is good; but that means capital and mules: there are not animals enough to supply the miners with food and fuel. To go to B. Ayres means hunting up saddle and pack mules at $10 each for the trip, not including expenses for man and beast on the road or pay of "arriero" hence: to go 80 miles costs 3 mules, at least 30 dollars, expenses $15 and man's pay say $5, or $50 for the trip, before reaching the railway. All this taking into consideration that a railway line is nearly completed the entire distance, except laying the rails. The full complement of track material, I believe, is in this country and paid for, rusting, while the earthworks and masonry are deteriorating rapidly for want of care. More work and less theory would lift the country out of debt by a sounder and surer road. It looks to me as though the Government had forgotten the ten pieces of silver entrusted to it, for surely a few of them are locked up here in these rocks; and quite as surely here as any place in the Republic one may plant coppers and reap shillings; but coppers not promises, must be sown.

The climate favours everything, health and comfort included. Water power is abundant and reliable. Of course, little agriculture can be carried on, save in the valleys where some more or less extensive systems of irrigation have been carried out by private enterprise.

Fruits of all kinds are abundant. Figs, peaches and oranges; the walnut, grapes and their various products wine, 'aguardiente' and raisins are of fine quality.

The town of Chilecito is prettily located in an elevated plain in a valley, a wall of mountains on the west, say one league distant. This is the famous mineral range, some of its snow clad peaks rising up to 16,000 feet above the sea level. The handsome Quinta "Carrera," property of W. A. Treloar, is within a distance of 6 miles. Some 20 miles south are the towns of Bichigasta and Nongasta, and the same distance north are Famatina and Carrizal. All of these places are relatively well watered, and in summer present most attractive and inviting appearances with their tall poplars and green vineyards.

Chilecito has a branch of the National Bank and of the Banco de la Nacion. The "Club Social" is in a flourishing condition with 200 members and a fine club house. The business houses are strong and sound as a rule, and carry large and well assorted stocks. It takes about seven days to reach B. Ayres, and one can travel in fine weather (bar accidents) in seven days to Copiapó. The trip to Rioja is over a very rough and mountainous road, requiring twenty four hours on mule back. I cannot pretend to give you any mineral or other statistics, nor would it be just to do so now, as any account of the present movement would be a very unfair indication of the future possibilities or past results. What we want is transportation (I don't mean to Botany Bay), but a means of communication with the markets of the world, that we may ship our minerals and fetch up our supplies, and more capital to develope our mineral resources, resources that have long ago passed from speculations and become facts. Hundreds of mines have been by slow processes opened sufficiently to show their worth beyond any possible doubt.

PROVINCIAL NEWS.

The peripatetic correspondent of our invaluable contemporary, the *Dia* of La Plata, is now in Tres Arroyos, which, he says is quite a neat little town with clean, well paved streets, and a population of some 15,000 souls. We regret to note that typhoid fever is causing havoc amongst the poor, and as there is no hospital, the disease is practically unchecked and may therefore assume the proportions of an epidemic. The Municipality receives an annual income of $51,000, which is no doubt a very small amount, but with a little good will and a little co-operation on the part of the inhabitants, some sort of a structure might be put up to receive the sick. The Tres Arroyos District covers an area of 2450 square miles. The police although not a numerous body are highly esteemed and are sufficiently strong to maintain order throughout the "partido." There appear to be quite a number of votaries of Bacchus, as the chief offence is in the d-and-d line. The land tax in the district produces close upon $14,000 per annum. There are some very fine camp establishments in the district. The principal owners are:—

Owners.	Cows.	Sheep.
Pecock & Belloco	1,500	18,000
Ortiz & Acosuso.	12,000	25,000
Carrera	11,000	24,000
Caride	6,000	35,000
Luro.....	8,000	40,000
Belloq.....	10,000	45,000
Anasagasti.....	10,000	40,000
Alzaga.....	20,000	60,000

The cows are mostly half-blood animals, and the sheep are generally either Rambouillet or Lincoln. The foregoing establishments have each a respectable area under cultivation.

Sunday was a fatal day in La Plata, as no less than three suicides occurred in that once-enchanted city. One of the suicides was well-known, Dr. Rozzalupi, an Italian doctor. He dwelt in a house in Calle 55, between 7 and 8. He was unmarried. About eight days ago he fell sick and he was obliged to take to his bed. His indisposition rapidly developed and finally presented all the symptoms of typhoid-fever. His fellow-doctors visited him and offered to look after him, but he refused. On Saturday night the fever increased. On Sunday morning he blew his brains out, leaving a note stating that he committed suicide, as he was unable to bear the tortures of the fever.

Another suicide took place on the same day in the same street, and a third was reported at Tolosa, making three suicides in one day.

PHOTOGRAPHY.

Roldan, Oct. 7th.

Mr. Editor,

Would you kindly allow me the use of your columns to ask those of your readers who know anything about photography to give to one desirous of commencing a few hints as to the best and easiest and cheapest way; what are the best apparati and which the best makers?

I am desirous of gratifying the desire of my daughter, a girl of eighteen, who from a child has shown a strong art inclination, and who without any instruction already draws well in water colours.

Yours truly.

RAILWAY ITEMS.

The bases of arbitration between the Government and Pacific Railway Company have been published.

The receipts this week for the seven principal Argentine Railway aggregate £57,152 in comparison with £43,669 in the corresponding week last year, exhibiting an improvement of 31 per cent.

The mileage open on revenue account was 4,020 compared with 3,663 in 1891, an increase of 357 miles or 9.7 per cent in the current year.

The receipts per mile per week were £11. 18s 4d. in 1891 and £14. 4s. 4d. in 1892, an increase of £2. 6s. 0d. per mile or 19.3 per cent in the latter year.

The value of the £ sterling was approximately $21.62 last year compared with $16.48 this year, the improvement in the value of currency being equal to 31 per cect in 1892.

The increase in gross receipts very nearly coincides with the appreciation of currency, while, had paper money remained at the same value as last year, the receipts per open mile would have shown nearly 12 per cent lower than last year.

The Buenos Ayres Western, with 73 per cent higher receipts on the same mileage as last year, is well to the front in regard to improvement. The Great Southern with 33 per cent higher mileage, shows about 31 per cent higher receipts, while the Rosario line with a very little higher mileage earned 44 per cent higher revenue. Such improvements as are exhibited in the returns of the other railways are due solely to the higher value of currency this year compared with 1891.—*Railway News.*

EDITOR'S TABLE.

The first real touch of Smiling Spring was felt in the air yesterday, and all the world and his family were in good spirits. Optimism raised its head, and everybody expressed the conviction that to-morrow's change of Presidents will take place in "santa paz." There will be the usual military parade in the Plaza: four infantry regiments and one of cavalry, all commanded by Colonel Moritan. The Lord Mayor has issued a soul-stirring appeal to the citizens to hang out their banners on their outer walls, in honour of Christopher the Great's memory.

The National College boys are not yet as orderly as they ought to be. They struck study yesterday in honour of Columbus, and mean to remain "out" till Thursday morning.

Several more Congressmen arrived in town yesterday for the Assembly to-morrow, and all fear of a "no quorum" has vanished.

A great part of the grand Roth Cabaña at Pergamino was burned down the other day. Loss $100,000, including 2,500 fanegas of maize. Insurance only covers part of loss. Fine sheep saved.

It will rejoice the hearts of our fashionable readers to learn that "Caste" will be repeated at the Odeon Theatre on Monday 24th inst. We're there already in spirit.

Another duel was spoken of yesterday as on the cards. We hope it won't come off. The recent fatal affair should serve as a warning.

The North wind on Sunday and yesterday was responsible for four suicides, three in La Plata and one in this city, the last that of young Ordoñez, Sub-Secretary of Police, who blew his brains out yesterday.

Great news for young people. Our distinguished countryman Mr. O'Kill, the ventriloquist, and his colleague Kit, the wizard, will debut on Thursday night in the Zarzuela Theatre in Calle Piedad. O'Kill is killing as a ventriloquist.

Señora Martelli made a hit as Gilda in Rigoletto at the Politeama on Saturday night. Her singing of "caro nome" and, indeed, all through was exquisite, and her acting perfect. This company of Cicchi's is full of most promising talent. The tenor Elias, as Duke of Mantua, displayed a fine voice which he manages well. On Sunday Aida was given, with Señora Calegari in the title role. All through the opera she obtained thunders of applause. The same may be said of Srta. Steinbach, who sang and acted the role of Amneris to perfection. All the other artists were at their best.

The following are the principal prizes drawn in the Agentes de la Capital Lottery yesterday:—2589, 20,000$; 6612, 1000; 1615, 7005, 500 each; 1318, 6570 10216, 200 each; 9617, 10555, 4806, 5541, 1991, 10879, 3036 with 100$ each.

The Rev. Dr. Smith A.M. will preach on the 23rd inst. at noon, at the Ferguson estancia, district of Canuelas.

In Rosario they are suffering from a very old River Plate complaint, "cocheros mal educados," who lash people hard on the face with their whips for looking at them. Here in Buenos Ayres there are a few highly educated coachmen, but not many, and they are no better than the others.

Those who would enjoy good eating should keep good-natured. An angry man can't tell whether he is eating boiled cabbage or stewed umbrella.

The Locusts have appeared in the Pergamino camps.

A French newspaper is authority for the statement that a cigar is about to be put on the market which enables the possessor to enjoy not only an excellent smoke, but also excellent music. This novel cigar is lit in the usual manner, and as soon as it begins to burn an entrancing melody steals forth from its interior.

There has lately died in England, a woman who, in her life, fulfilled the highest duties expected from one of her sex, either by man or woman. Mrs. Sarah Parker Snow, who has passed to her rest, during her 53 years of married life with Capt. W. Parker Snow, accompanied him on many perilous and distant voyages. She was the first white woman to live in Tierra del Fuego, and her influence—firm but gentle—with the natives is still felt.

There is a pæan of joy from all rural parts, owing to the rain; and if the Locusts do not make another charge on the wheat fields, all will be well with our bucolic friends.

The amateur performance at the "Germania" on Saturday night was witnessed by a large audience in spite of the downpour of rain which kept many people away. The decorations of the theatre were magnificently done by Mr. Eilers whom we congratulate on his work. The acting in the piece was tip-top throughout and exhibited great talent on the part of the amateurs, who could not be surpassed by any other Dramatic Society. After the performance dancing began at midnight; and here the most charming beauty was exhibited by the fair ones who kept up dancing till daylight. The whole affair proved a grand success, as was anticipated, and we beg to state that the performance will be repeated on Sunday next, to give an opportunity of attending for those who were unable to be present on Saturday last.

The Locusts have stolen a march on the Extinctionists in San Juan, and 50,000 shinplasters are urgently required to deal with them. This is not fair. San Juan asks for more than its share of the Extinction plum cake. Cordoba, Corrientes and Mendoza only got $20,000 each.

The Italians begin the Colombus powwow to-night with a gala performance in the Politeama Theatre. To-morrow the Committee will pay an official visit to the Lord Mayor. Then there will be a grand procession of 100 Italian cities to the Plaza Italia (Entre-Rios and Caseros) on Saturday another performance in the Politeama, on Sunday "da capo" the procession. "Evviva Italia!"

The Children's Pantomime in the Opera House on Sunday was a prodigious success, and must have cost thousands of shinplasters. Never before in this extravagant city have we seen such "lujo" displayed as in the gorgeous dresses of the juveniles. Master Ben. Zorrilla played the great navigator to perfection, and received a thundering ovation. All the scenes were magnificent, but the reception of Colon by the Court on his return from America was stupendous, and would require a column to do it justice. Miss Tulia Sansinena played Queen Isabel, and Master Albert Vivot King Ferdinand: while Master J. M. Arredondo looked every inch a Cardinal Gonzales. It was a grand affair, and all concerned are to be congratulated, expecially Mrs. Pellegrini and Mr. Albert del Solar, who worked it up.

Fashionable Belgrano was white with terror on Saturday about the "caso sospechoso;" was better on Sunday, and all right again yesterday. The party responsible for the scare is now in his grave. He was a gay and quite too festive Gaul named Jean Pollet, and he drank himself to death without any assistance from the visitor from the Ganges.

The Kermesse in Plaza San Martin opens to-day, and we recommend all who can to visit it. All the fair dames and damsels of Porteño high life will be there at the innumerable stalls. In fact, such a muster of beauty, fashion and wealth on charity intent has never been seen in this city before. The Children's Pantomime, the Kermesse and the coming Corso de Flores keep the Porteño "beau monde" in a contiual whirl of pleasurable excitement just now.

The G. P. O. has very properly refused Mr. John Koenig's sporting offer to buy all the unused postage stamps of the old issue. The P. M. G. can't see what the Treasury or public service would gain by the business, though Mr. K. would certainly make a nice fat thing of it.

We find the following queer story in an Oregon U. S. exchange, and wish we could get hold of a cow of the same breed for the summer months:—"The man with the sea-serpent story will please retire and make room for James Thomas of Puyallup, who has a cow that puzzles the medical fraternity, by giving beer instead of milk. It seems that last summer the hop-picking Indians fed her on hops, and since then she has declined all other kind of food. Mr. DeHabb's customers now find that they are getting beer instead of milk, and one well-known temperance man shocked the susceptibilities of the community by arriving at morning service Sunday in an intoxicated condition." e

There was a printer's error in our "precis" of Dr. Balestra's report on Sunday. The ratio of deaf-mutes in this *country* is six-fold as great as in Europe, not in this *city*, as the printer made it. The ratio in Buenos Ayres, city and province, is only twice as much as in Europe.

An odd thing about boots and shoes—they're always soled before you buy them.

But Clients Don't take to Them—Large checks are always fashionable for lawyers' suits.

An immense crowd gathered within the spacious precincts of the Ball Alley in Calle Cordoba on Sunday to witness the match between Chiquito de Eibar and Garmendia and Paysandu and Ezcurra for a stake of $6,000. There was not standing room in the place, and the boxes were thronged with well-known "aficionados." Proceedings began with a small match with the cesta, between Lavaca and Zurdo de Abando and Lasarte and Melchor, resulting in the former winning. A "quiniela" for eight points followed, the Left-hander (Zurdo de Abando) winning in good style. The betting was very brisk on these two events. Excitement, however, reached its highest pitch when the great match came on. Paysandu did not appear to be in his usual form and Chiquito was evidently suffering from a bad cold, but in spite of all, the match was a most exciting one, at least in the first half of the game, for Chiquito and Garmendia won by 25 points, Paysandu and his plucky little companion Ezcurra being simply nowhere. The match was with the glove, and Chiquito's play was admirable. With the glove he is pronounced to be the best player in the world. His wonderful strength seems to be doubled by his dexterity and his knack in striking the ball, which he causes to rebound from the wall with tremendous effect. Paysandu is physically a strong man, but he lacks the dexterity and knack of his succesful rival. Paysandu plays with his arm, Chiquito seems to put his whole body and mind into his glove. It is a sight well worth seeing, and it is difficult even for a person who sees the game for the first time to refrain from participating in the general enthusiasm and excitement roused by the ups and downs of a good match. The last event on the card was a "quiniela" with the glove by the four already mentioned, but it did not come off, as Paysandu refused to stand against Chiquito, who is simply invincible.

A man was killed by lightning on Saturday during the storm, while walking through the streets of Banfield.

For our horsey friends:—"I'll have you arrested for making false representations. I bought that horse of you only because you told me he had a record." "Very true, the record is a bad one. You didn't ask me what kind of a record he had."

Mrs. Harrison, is often found in the kitchen of the White House, in a white apron and sleeves rolled up, working like any other good cook, which she is.

Mr. George Washington had this to say: "I have a cook who never asks if the company has come. My dinners, like time, wait for no man.

In Guatemala they are very anxious about Buenos Ayres, as according to our exchanges from that well informed place there were 604 deaths from cholera in this city of Good Airs during the month of June last!

English in Hyderabad.—One of the Indian papers prints this letter received by the wife of an officer from her butcher at Hyderabad:—"Honoured Madam—Madam's servant tells me Madam not pleased with poor butcher, because mutton too lean and tough. But sheep have no grass, how grow fat? When come rain, come fat sheep. I have the honour to remain, Madam, Your affectionate butcher, *Mohammed Cassim.*"

No balloon ascent at Palermo on Sunday owing to the bad weather. The ascent promised will probably take place to-morrow: if not, on Sunday, w.w.p.

It is a peculiar fact that the men who always make a fuss about the poor cigars that are presented to them, never murmur about the poor ones they buy.

La Tetrazzini had a rattling reception from the crowded audiences in the San Martin Theatre on Saturday and Sunday nights. She has a fine, well-schooled voice, and is a capital actor. The reception she met with ought to be a set off against all the legal worry she has lately gone through.

The porters of the Government House are unanimous in their opinion that half the woes of the country would be cured by adopting one year instead of six as the Presidential term. They all received a month's wages extra on Saturday as a parting gift from the Pellegrini Government.

We call the attention of the public in general and those troubled with corns in particular to the number of long-felt wants which Mr. Williams, of Rojas, is ready to supply for a small consideration.

There turns out to be something in the Recoleta Cemetery affair. It appears that some unscrupulous persons who rent niches in the Cemetery, to sub-let them, have been making money by letting the same niches over and over again, making room for new comers by selling the coffins, clothes, jewels, etc., of the previous occupants and flinging the naked corpses into vaults or other places. Of course, this monstrous work could not have gone on without the connivance of the Cemetery officials and employees, who are to be dismissed and prosecuted.

THREE GOOD REASONS

Why Sheepmen everywhere should use
Alexander Robertson's
HIGHLAND SHEEP DIP.

Best Summer Protection for Sheep.
Cures Scab.
Exterminates Vermin.

First.—It is an honest preparation. I publish the formula of its composition openly. I make no attempt to trade on the credulity of my patrons, who, with the formula before them, can form a shrewd opinion of the efficiency of the "Dip" and its value in Cash. I range myself alongside the Farmer, and make his interests my own.

Second.—It is a reliable sheep dip. That it Kills Vermin goes without saying—any Sheep Dip worthy the name will do that; but the Highland Sheep Dip does more,—it has a continuous destructive effect on all insects hatched after Dipping, and largely prevents future contagion from infected sheep. The strongly adhesive nature of the Rosin and Grease, which are the most powerful Waterproofing materials possible to introduce into a sheep Dip, "fix" the Dip in the fleece, forming, when dry, a film capable of resisting moisture, on every individual fibre of the fleece, so that when the fleece has been soaked by rain the sheep easily frees itself from all superabundant moisture by a simple shake.

Third.—It is the most economical Dip. For $1.75 gold Makers of Powder Dips give about 10 lbs. of Powder. This quantity of Yellow Powder Sheep Dip contains 2 lb Arsenic, 2 lb. Soda, 6 lb. Sulphur. These Dips kill vermin certainly; but their use is disastrous to the farmer—the harsh, dry feel of the sheep's fleece shortly after being bathed in these Alkaline Dips arises from the fact that the wool has been Robbed of its Natural Grease, which the Soda has converted into Soap, which, in turn, is washed out by rain. The farmer suffers a corresponding loss in the weight of the Wool, and the Sheep, robbed of Nature's protection, is left defenceless against cold and rain.

Soluble Fluid Dips—whose name is legion, though their nature is one—have an average cost of $1.20 gold per gallon, and consist of tar Acid Oil (25 o/o), 6 lbs. Soap, Soda and Water 4 lbs. These Dips have to be used at nearly double strength to kill vermin, even then they have no effect on the eggs; and, indeed, from the volatile nature of Tar Acids their effect can never be anything but temporary, no matter what strength they are used. The one thing in their favour is their free solubility in cold water, which is but a poor return for the need of greater frequency of Dipping, or the other alternative of flocks suffering from the effects of a temporary Dip.

The highland Sheep Dip contains in each 15 lbs. (1½ gallon), costing 1.75 gold 2 lbs. Arsenic, 6½ lbs. Tar Acid Oil (25 o/o), 2 lbs. Carbolic Acid (95 o/o) 4½ lbs. Rosin, Grease, etc., i.e., all the Arsenic in 10 lbs. Powder Dip, and all the Tar Acids in 2 gallons Fluid Dip, these insecticides being combined with materials of unrivalled Waterproofing Power.

No other Sheep Dip Maker in the world has ever put an equally serviceable preparation in the hands of Sheep Farmers, or has given an equal value in material for the price charged.

EXTRACT OF TOBACCO.

According to numerous testimonials which we hold the extract of pure tobacco is the only infallible remedy to radically cure the scab in sheep and naturally the cheapest. As there are several trade marks like ours care must be taken to see that the extract bears the key marks, without which it is not genuine.

Directions for use

One part of extract mixed with 100 to 150 parts of hot or cold water for bath, and with 80 to 100 parts for hand curing.

The members of the Argentine Scientific Society visited the magnificent Gas-works of the Gas Argentino on Sunday Oct. 2nd and yesterday. The Corrales gasworks were visited first and the Almagro works on Sunday. At each place the Society was met by Mr. W. B. Whitaker, the engineer, and Mr. Gabaret, the Secretary of the Company, also the managers of the two works, Mr. Rowbotham and Mr. James. The members were very interested by the eloquent descriptions of the different machinery and process of gas making given to them by Mr. Whitaker. After which a splendid luncheon was served to the guests, when numerous speeches were made eulogizing the management and general condition of the works, which are, no doubt, the largest in Buenos Aires, and a great credit to local enterprise.

Cheques of the Provincial Bank closed at 36 ⅛ discount; those of the National Bank at 17⅛ discount. Bonos of the La Plata Mortgage Bank rose to 18.40 % of their face value.

As will be seen by an advertizement in another column, Messrs. Hunt and Carey, of Lomas, contractors and builders, have dissolved partnership, the firm now being J. Hunt and Co., to whom all orders should be addressed.

The chief of the land office has just arrived at the very novel decision that the Government has no power to lease any of the islands on our South Atlantic coast, and it is very probable that the new Government will bring the matter before Congress,as several parties have already obtained leases from the Government for islands on the coast and have them stocked with sheep and cattle. Deer Island,or as it is called on the map Isla de Gama, covering an area of three square leagues, was leased for the last ten years to Mr. Hector Alvarez and Sr. Pairano, and there is a large "rodeo" of cattle and several flocks of sheep on the island in question. The lease has now expired and application has been made to renew it. Mr. Sassenberg, son of Mr. Sassenberg who was so well and favorably known in this market, has also three or four small islands leased from the Government, which he has stocked with sheep. These islands lie between the Colorado and Rio Negro, close into the shore, and we imagine that those leases must be respected. Further down on the coast South of the Rio Negro there are many islands, but people in the Government House know as much about them as they do of the man in the moon. Some are stocked by parties who are squatted upon them and have never paid rent to anyone, and we imagine that it is a lucky thing for the Government, as the tenants in possession will always be willing to pay a fair rent for their holding. The pasturages are good and as a rule cattle and sheep increase wonderfully on those islands, but the great drawback is the want of a market. It costs very little to stock an island with a few cows or sheep, but it becomes a very serious expense when the sheep increase to 7 or 8 thousand, to ship the half of them to the main land, and the same way with a "rodeo" of 1,000 cows; the island 'estanciero' does not know what to do with them, it is therefore a mistake on the part of the chief of the land office to attach too high a value to these islands, and it is far better to have them peopled with squatters than to have them lying idle simply because there is no law authorising the Government to rent them.

Things seem to be wonderfully improving in Rio Janeiro, and the coffee crop is bringing the country back rapidly to specie payment. Exchange has gone up to 16 pence and over, and the very great difficulties which so long threatened the Rio market seem, under the able administration of President Peixoto, to have been removed. There is a dead pause up there in the wild speculation of last year. Things are settling down to their proper level and peace and order reign throughout the Brazilian Republic.

Another grand house for our new boulevard. Mr. Bernasconi has applied to the Municipality for permit to build a palace at the corner of Calle Lima and the Mayo Boulevard. It seems a little far up in the new street, as there is yet a good deal to be knocked down to open the boulevard through from the Plaza to Calle Lima; but,time that works so many changes, will, no doubt, eject the opposing property holders, and by the time the Bernasconi mansion is finished the avenue will be open.

The growth of gambling in this city is so very remarkable of late that the Municipality is now trying to shut the gambling billiard saloons where the youth of the city assemble every night; and there is a case now pending before the lord mayor which, claims attention. The owner of a well known billiard saloon who has paid to the National Government the gigantic patente of $50,000 % finds the police at his door, by order of the Municipality, to prevent the public entering. He has offered to pay the Municipal tax on the billiard tables, but the Municipality declined to receive it; and the Assessor has given it as his opinion, that notwithstanding the payment of the 50,000 % patente to the Government the Municipality has the right to refuse to him a billiard licence. It is to be supposed that the Government will refund him the 50,000 nats. he paid for the patente ; otherwise it would be a gross injustice.

The news from La Plata to-day astonished the whole market. The La Plata Government is about to lend 70,000 nats to the country municipalities; now the wonder is where the Government gets the money from,as there is a very general impression On'Change that there are not 70,000 coppers in the La Plata Treasury, and that it is more likely the Government want to borrow than to lend such a sum.

People must be again on their guard against forged bank notes, as out at Las Heras false 10 and 50 dollar bills have been discovered ; why the forgers selected such a peaceful,happy spot as Las Heras for the emission of their false money remains to be explained. Shearing is going on out there at present and very possibly they hope to get the notes into circulation amongst the shearers.

The Chas testamentoria has been wound up and the property distributed amongst the heirs,amounting to 1,500,000 nats.

The immigration returns for last month show favorably. The total arrivals of passengers amounted to 8,110, and deducting those who left the country there is still a surplus of 5,142 who remained.

The Tamar passengers were taken to-day by small steamer to quarantine on Martin Garcia. The Tamar will be out of quarantine on the 13th inst.

The Rivadavia leaves to-night on a special trip to Montevideo and back. The charge to excursionists is $25 for the round trip, which is made to convenience the tourists who wish to attend the Columbus fetes in Montevideo.

The rain has been general throughout the country and will prove to the farmers an incalculable blessing. It, however, stopped all port business for a short time.

Application has been made to one of the judges about the publications in the *Bolletin Judicial*; some parties complain that their full names and initials are given in those legal documents which should not pass the precincts of the courts. We don't see the justice of the application; on the contrary, the notices of foreclosures by the Mortgage Banks should give the names of the mortgagors; and the *Boletin Judicial* would be perfectly useless if the judges ordered the names of the debtors to be kept from publication.

A LOS HACENDADOS Y á nuestra clientela

Animados por el favor y la confianza que los hacendados y el publico en general dispensa a esta casa, obligandola mas vasta esfera de accion, y deseando corresponder a sus exigencias, nos es grato comunicarle que desde la fecha hemos incorporado a nuestra casa de remates y comisiones las consignaciones de frutos del pais y cereales os que recibiremos a comision para vender en los mercados Central de Frutos, Constitucion y Once en las mismas condiciones que los demas consignatarios.

Semanalmente remitiremos a nuestros comitentes una revista de precios corrientes con fieles apreciaciones sobre el estado de la plaza.

Cuando los criadores o nuestros clientes lo pidan venderemos sus frutos en remate previo anuncio, lo que ofrecera la indiscutible ventaja de dar nombre y fama a los establecimientos productores, cuyos frutos con raras excepciones se venden actualmente sin saberse en nuestra plaza y menos en Europa el establecimiento que los ha producido.

La venta en remate ofrece por otra parte en nuestro mercado mayores facilidades que en los del Havre, Londres y Amberes, porque aqui los compradores pueden apreciar mejor todo lo que compran, examinando el articulo sin enfardelar.

La distancia a que se encuentran nuestros mercados uno del otro y la circunstancia de hacerse los negocios simultaneament en los tres, tiene el inconveniente de distribuir los compradores alejando la competencia, y el remate subsana esta dificultad, porque como se anuncia previamente, permite a los interesados congregarse a una hora fija en el mercado donde ha de efectuarse la venta, estimulando el exito de las operaciones la competencia de los licitadores.

Para vender frutos en remate, sera necesario que asi se nos ordene expresamente, de lo contrario venderemos a estilo de plaza.

Esperando merecer en este ramo la misma confianza que en las otras comisiones, nos es grato repetirnos sus atts. y S. S.
